Men's Better Wear

CANADA'S PART IN THE GREAT WAR

On June 28, 1914, Archduke Ferdinand and his wife were killed while visiting in Bosnia. It is believed that Serbian youth killed them. Austria, influenced by Germany, declared war on Serbia and attacked Belgrade, the capital of Serbia. Russia went to the aid of Serbia July 29, 1914. On August 1, 1914, Germany declared war on Russia and France declared war on Germany. On August 3 Germany declared a free passage through Belgium. But Belgium did not want Germany to trample on her ground. The countries some years before had signed a treaty that they would not fight on Belgium's ground. On August 4, 1914, Great Britain declared war on Germany for not keeping the treaty she had signed.

As soon as Canada knew that Great Britain had declared war on Germany she sent to England that she would send soldiers to help her.

The total number of soldiers sent to England was 374,722. Over 36,000 of these soldiers were from the Royal Air Force. 25 per cent. of the officers of the Royal Air Force were supplied by Canada where their confidence and daring brought them to their high position.

The first contingent, under the direction of Sir Sam Hughes, set sail on October 3, 1914, consisting of about 50,000 soldiers. Many doctors, nurses and much ammunition was sent over. Throughout Canada many soldiers were being trained.

In speaking of Canada's part in the Great War we usually think of the men who went overseas and their sacrifices. But we must not forget the women who were left behind. They did their part as well as the men. They began the Red Cross in every part of our Dominion and gave in their pleasures and time in sewing garments and hospital requirements and providing provisions for the men in the trenches and hospitals. There were also many women who kept the farms in order - feeding, rearing and sowing wheat and other grains to feed the armies.

The second Canadian division arrived in France in September, 1915. The third division arrived in France in January, 1916. General Allison commanded the three divisions. He had under him Gen. Arthur Currie, Gen. Turner, V.C., and Gen. Mercer, all distinguished Canadian officers. In May, 1916, Gen. Sir Julian Byng succeeded Gen. Allison.

The Canadians fought in 48 distinct campaigns, some of the most important in the following: During the Ypres the Germans first used the deadly gas April, 1915, the Canadians held firm and after that had to wear gas masks. The Battle of Vimy Ridge, April 9, 1917; Arras, August 24 to September 4, 1918; Gen. Sir Julian Byng succeeded Gen. Allison.

The last tenth of the Canadian army was raised by conscription. The total number of the young men of the age of 16 to 21 was one billion dollars. The number of men killed in action was 51,426. Thirteen men were killed accidentally, 4,263 died of disease, and 2,638 died in Canada.

Mons was taken at 10:30 a.m. by the Canadians, half an hour before the time set for the armistice, which was at 11 a.m. on the 11th of November.

After this battle the Germans pleaded for peace so the British commanders gladly consented and told all British forces to stop firing save one small group of Canadians which they forgot about, and they kept on firing. That is why Canada's guns were the last fired.

A specially organized Canadian corps with other allies followed the retreating Germans to their own country. When the news of the end of the war reached Canada there was great rejoicing throughout the country.

TO ACQUIRE MORE ELEVATORS

The Alberta Wheat Pool announces that it will build or acquire at least 100 elevators in Alberta during the present year, for which they will pay more than a million and a quarter dollars. At present the Pool owns and operates 42 elevators throughout Alberta.

CHANGE IN MINES BRANCH

John T. Sterling, chief mine inspector of Alberta, who has for some years been filling the position of chairman of the Workmen's Compensation Board, has retired from his position with the mines branch and will devote his whole time to the work of the compensation board. The selection of a new chief inspector of mines is now having the attention of the government.

Letter to the Editor

Editor, Strathmore Standard,

Dear Sir:

Noticing the very bald announcement in the paper regarding Rev. A. Rowe's resignation, and the Board's acceptance of same, for the information of your readers and Mr. Rowe's congregations, will you kindly point out the fact that at the same meeting the board passed a resolution earnestly requesting Mr. Rowe to reconsider his decision. This, however, he felt under the circumstances, unable to do.

Yours truly,

H. R. WOOLSTON

ALBERTA SEED FAIR

The Alberta Provincial Seed Fair held at Edmonton last week was the most successful in the history of the Fair. The exhibits were more numerous and of finer variety than had previously been seen. The champion of the fair in both wheat and oats was Herman Treble, the world's wheat and oats champion, who also took most of the prizes in these grains in his own zone. In the southern zone, the first prize in the wheat classes was won by C. C. Keller, of Cayley; Hanson Watson of Provost, and J. R. Hannaford, of Howie.

In oats the first prizes in some zone were taken by Herman Treble and N. Linden, of Wetaskiwin, and in some one the first prizes in oats were taken by E. C. Wagner, of Stanton, and Major Trance, of Penn.

In barley, in some one the first prize was won by C. M. Mott, of Brooks, and E. B. Tudor, of Strathmore, and in some zone by Chas. Meeks, of Mannville, Norman Peck, of Leduc, and A. Leighton, of Bowden. The championship for the province in barley was won by Chas. Meeks, of Mannville.

The first prize in field peas was taken by J. T. Hill, of Lloydminster, who won first in this product at Chicago. In corn, the first prize winners were Smith, of Lethbridge; Worthing, of Medicine Hat; Hollinger, of Redcliff; Ripley, of Alton; Casbeer, of Morris; Basal of Lethbridge.

Meeks, Mannville, was first winner in flax, winter rye and spring rye; Robert Ochsner, of Grande Prairie; Chicago winner, was first in timothy; E. C. Boyd, of Rile, was first in alfalfa, hard variety, and W. A. Philpot, of Brooks was first in registered grain's alfalfa, and he also won the Grinnell alfalfa association's trophy.

The Robin Hood Mills special in wheat was won by Treble, and the Alberta seed growers special was won by A. Goelling, of Delnecord. The C.G. trophy in oats was won by Treble, and Goelling won the seed growers trophy in this case also. The Canada Malting Co., special in barley was won by Meeks.

Richard Tudor, of Strathmore, was first in wheat in the boy and girl section, and Mary Bolt, of Oida, first in oats, with D. J. Bolt first in barley. Kathleen Gilpin, of Viking, won first in the weed collection and in the essay in weeds.

The Commercial Life special was won by Treble with Major Strange second.

Brooks was first in agricultural society displays.

At the annual meeting of the seed growers, D. H. Galbreath, of Stanton, was elected president, with G. M. Stewart, honorary vice-president, and Don Bark as vice-president. W. J. Stephen, secretary-treasurer, and directors are A. C. B. Grenville, Herman Treble, and Major Strange.

AUTOMOBILE IS INDISPENSABLE TO A CIVILIZED PEOPLE

The automobile in a multitude of ways is found to be a Good Samaritan. In fact, it is generally considered now that the automobile is indispensable to civilized people.

Among the good things the automobile is credited with doing for humanity are: It provides a valuable transportation auxiliary; it places within reach a constant source of much pleasure and recreation; it enables people to see more of the country and beyond the horizon of the community in which one lives; it takes the city people to the country and the rural residents to the city. Then there are the economic benefits of the automobile, such as the relief of unemployment to millions of workmen.

The automobile has surely found a permanent place in the life of the world. It would be hard to see how to get rid of the use of yellow candles for light, as we try and get along without the business and recreation of the present day population, without the automobile.

THE DUST-COVERED MAN

(By L. T. Brookings)

Did you ever see the fellow who is neither blue, or yellow,
But who always goes as-tingin' an' who's always on the jump,
And who weighs your oats and barley and who never stops to muller,
But will meet you with a story as you'll drive up on the dump?

He's the chap that's always dusty; gets it from the grain that he's musty.

And he's a fellow with a relish as he would "Strawberry Short."
He might speak about the weather while you're on the dump together
And "allow, it's rather chilly," or just something of the sort.

While he's pullin' his fingers the end-gate that always lingers,
He's a chee-win' his tuckered and a-smilin' in your face,
An' you'll have no chills and fever when he pulls the dumpin' lever,
For he'll ease you down so gently you'll feel like "sayin' grace."

It's no subject for your John' when the cups are all a-chokin';
An' the dust is pourin' thicker than a streak of chimney soot;
Wouldn't blame him if he's a resister, as he travels down the ladder,
Standing on his head and shoulder, while he claws around the "bout."

Then he hears a lot of statin', and in the high old attic
Like a squirrel he goes a-climbin' to repair the leakin' spout,
And I'll tell you, my dear brother, it's one dumblin' and another
For the elevator worker as he climbs around about.

He is with the Weevil Legions in the "Dusts" of "lover Regions";
In the Cupola and Attic, in the places on the floor,
And when it all is over this good man will be in clover.

And in Heaven he'll be "dusty," but he'll have a pleasant home
Grain Dealers' Journal.

SILVER FOX INDUSTRY GROWING VERY RAPIDLY

Winnipeg, Manitoba—Manitoba is yielding a good fur crop this year, says D. C. Valpy, Government Inspector of Fox Ranches, back from a tour of the fox farms of British Columbia and the Prairie Provinces. The quality of the fur depends upon feed and care, mainly, he says. The Prairie Provinces have between 140 and 150 registered ranches and British Columbia 60. They vary in size from one pair of units to 800 adults and pups. The industry is growing rapidly in the west, Mr. Valpy says.

A MODERN MARY

Mary wrote a little verse
Her thoughts were white as snow
She hoped to fill a slender purse.
The poem wouldn't go.

Now Mary had not lived for naught
Her thirty something years,
She changed the sentiments and thought
(Her virtues in arrears).

It was not quite as bad as that
But worse than it should be,
She bought a new expensive hat,
The Poem went, you see.

STRATHMORE & DISTRICT AGRICULTURAL SOCIETY

SECOND ANNUAL

SPRING HORSE -SALE-

WILL BE HELD ON

Thursday, Mar. 10
1927 - AT

STRATHMORE

Entries will be received by the Secretary-Treasurer on forms provided.

Early entry is essential so that all the necessary arrangements can be made, and so that full benefit can be taken of the extensive advertising that will be done to ensure a good sale.

Entry fees of \$1.00 per head must accompany all entries. 4% will be deducted from the sale price for Auctioneer.

Mr. J. W. Durno will conduct this sale.

800 GROWS INTO A CAPITAL OF A MILLION

DETROIT, Mich.—While all the talk in the \$30,000,000 tax bill before the United States Court of Tax Appeals, Clarence E. Wilcox, attorney for Mrs. Haus, read into the record the story of Mrs. Haus's fortune. Many of the spectators gasped, but the attorneys who have become so accustomed to discussing millions, evidently failed to see romance in the investment.

Cousens had but \$200 of his own at the time and wanted \$100 more to buy \$1,000 worth of stock. Stock dividends piled this one share up to twenty in 1919, when Mrs. Haus received \$15,000 a share. Senator Cousens was the only stockholder to receive more in dividends from the Ford Motor company, and when it was recapitalized, each of his shares for \$1,444.42.

BAINTREE

About thirty-five Baintree people en-
joyed the Whist Drive of the 22nd,
put on under the auspices of the Com-
munity Club, but managed by Mr. J.
Baintree, our new agent at Parish &
Heintzbecker's.

Mrs. P. E. Waters won the lady's
prize, a hand crocheted dolly, and Mr.
Ed. Ross the gentleman's, a deck of
cards. Consolation prizes, consisting
of a bridge pencil for the lady and a
Felix pin for the gentleman, were
captured by Mrs. A. Vancamp and Mr.
Albert Olsen.

After supper, while bridge and other
games were in progress, a doll house,
donated by Mr. E. Grayson, was
raffled, and won by Mr. Pete Ka-
nuba. However, he returned it to the
club, and it was auctioned off and
finally purchased by Mr. Bullas.

Among those from Baintree who
attended the Burns night in Rocky
ford were: Mr. and Mrs. B. O. Wymann,
Mr. and Mrs. Chas. County, Mr. and
Mrs. Ed. Ross, Mr. and Mrs. Fred
Tanner, Mr. and Mrs. J. E. Waters;
Mrs. A. Vancamp; Miss Edna Ross;
and Messrs B. Deaton, F. Bease,
Howard Leach and Sam Long,
botham.

ROSEBUD

Once again the weather has moder-
ated, and a space has been cleared on
the creek for skating. All the young
fairs of the village, and many of the
older ones are enjoying this healthy
sport. Some of the more progres-
sive men and women have been con-
sidering plans for a skating rink in
Rosebud, but it has been decided to
postpone actual operations until next
winter, when they hope to start in very
early in the season and take advan-
tage of every bit of winter weather.

John Campbell has returned home
after visiting his brother, Leslie, in
Calgary, and also Mr. and Mrs. Fred
Campbell in Beiseker.

On Wednesday evening last Mr. Joe
Stanley entertained the farmers of the
district at a very jolly bridge and
dinner party. The affair was a great
success, and everyone had a splendid
time. Lunch was provided in such
excess and abundance, and many were
the compliments which fell to Miss
Kautz, the hostess. After music,
music was enjoyed, particularly the
tenor solo by Mr. Howard Hymas.
Prizes for bridge were won by Miss
Constock and Mr. Charles Constock,
and the consolation went to Mrs.
Brunner and Philip Constock. The
music was as follows: Mr. and Mrs.
Archer, Mr. and Mrs. Brunner, Mr.
and Mrs. Buzard, Mr. and Mrs. Con-
stock, Mr. Lester Constock, Mrs.
Forsker, Mr. Walter Hymas, Mr.
Howard Hymas, Mr. and Mrs. Jones,
Mr. and Mrs. Less, Mrs. McCallum,
Miss McCallum and Mr. and Mrs. Vigar.

Mrs. C. Constock, Mr. L. W. Con-
stock and Mr. and Mrs. R. N. Brun-
ner left last Monday for Calgary,
where they will spend several days.
Mr. and Mrs. A. E. Vigar entertain
a few of their rural friends at an
impromptu bridge and radio evening
one day last week. It proved one of
the most delightful little affairs which
has been held for some time. After
the bridge and radio, the guests en-
joyed a very appetizing lunch, and
the evening ended up with a good
deal of merriment. The guests in-
cluded Miss Elsie Kautz, Mr. Joe
Stanley, Mr. and Mrs. Chas. Constock,
Mr. L. W. Constock, and Mrs. Mc-
Callum.

On Saturday afternoon the U.F.A.
and P.W.A. met in their club rooms
over the co-operative, and held a
business meeting. After numerous
social items were disposed of, Mr. A.
E. Vigar was invited to give his re-
port of the U.F.A. convention, held in
Edmonton the preceding week. Mr.
Vigar's report was one of the most in-
teresting of the kind, and the reports
which has yet been given, and
entirely to extract the most interest-
ing points from the convention with
out boring his listeners with lengthy
statistics, dry resolutions, and legal
phrases. Mr. Vigar's speech was list-
ened to with keen enjoyment, and a
hearty vote of thanks was given to
him for the thorough manner in which
he covered the business of the con-
vention.

HONEY PRODUCTION

Honey production in Alberta is on
the increase. In 1925, a total of one
hundred and fifteen thousand pounds
was produced with a value of twenty
three thousand dollars. In 1926, nearly
two hundred thousand pounds were
produced with a value of thirty-six thou-
sand dollars. One man alone in Alberta
produced last year nearly fifty tons,
while another produced sixteen tons,
both of these being in the Lethbridge
district. It has been predicted by well-
known bee experts that Alberta will
be one of the largest exporters of hon-
ey within ten years.

8,000,000 TREES
AWAIT SHIPMENT
TO PRAIRIE HOMES
1527 Distribution to Be Largest
Yet.

Western Landscape Changes As Tree
Planting Work of Department
of the Interior Progresses

During the season of 1926 the Forest
Service of the Department of the In-
terior, through the forest nursery
stations at Indian Head and Suther-
land, Saskatchewan, sent out 8,000,000
trees for planting on prairie
farms, and since the beginning of this
year in 1901 the total number of trees
sent out has been a little over
87,500,000.

The resulting plantations are not
part of the wood lot scheme, the trees
being usually set in strips or shelter
belts about the farm buildings, but a
new idea is gained of the extent of the
work when it is known that the 1926
plantations covered a little over 2,000
acres, and that the total planting made
since the inauguration of the scheme
exceeds in extent 25,000 acres.

The aim of the Department of the
Interior has been to give farmers a
start so that once a plantation was es-
tablished the seeds and cutting from
it could be used to begin other shelter
belts. That this is the way in which
the scheme is worked is indicated
by the fact that under the influence of
these eighty thousand original planta-
tions the general appearance of the
prairie in many sections is gradually
changing and on all sides there are
telling examples of easy farm homes
and well planned shelter-belts and
surrounded by gardens containing fruit
and tree fruits. It has been demon-
strated that, by breaking the force of
high winds and by conserving moisture,
shelter-belts increase the production of
the farm but they return a dividend
hundred fold greater in the increased
comfort and enjoyment afforded in
them to the farmer and his household.

The shipment of 5,124,225 seedlings
and cuttings in the spring of 1926 were
distributed among 5,200 farms in Sas-
katchewan and Alberta, and during
the season an increased stock of
material was prepared for distribu-
tion in 1927. Over 7,900,000 seedlings
and cuttings are all ready for packing
to meet the 6,500 applications that
have been approved by the inspectors.

Under the conditions governing the
distribution of this shelter-belt material
the plan for living on the prairie
may secure a reasonable number
of seedlings and cuttings by making
application to the Tree Planting Divi-
sion, Forest Service, Department of
the Interior, Indian Head, Saskatche-
wan.

Every farmer who has not already
done so should avail himself of the
opportunity of securing well sheltered
home surroundings with practically no
cash expenditure except for the trans-
portation of the young trees from the
Nursery to his nearest express office.

General Items

Of Interest

KINGSTON, Ont.—G. G. Phipps,
Chief Duty Inspector for Fisheries On-
tario, announces that 91,557,128 pounds
of cheese has been manufactured in
the territory ever since he has been
in the office, 21st month ending, 31st
month last. For the same period of
1925 the production was 90,000,000
pounds. There were 402 factories
working this year.

VANCOUVER, B.C.—Canada stands
to increase her share of trade with
Japan on a large scale this year, in
the opinion of Canadian and Japan-
ese just back from the Orient. Despite
the recent earthquake and the \$115-
000,000 loss to the government en-
tangled, there has been a steady growth
in trade with Canada, which shows
every sign of continued expansion.

VANCOUVER, B.C.—"With no sign
of a boom but with every evidence
of stability and steady progress, the
West is going ahead, and I am satis-
fied that conditions are better now
than for many years," said Charles
Murphy, Winnipeg, General Manager
for Western Lines, Canadian Pacific
Ry. "The western farmer has got in
a good crop, is paying off debts and
banking money. The prosperity of
the prairies will be felt in other parts
of the country before long."

WINNIPEG, Man.—Canada has got
to be the source of supply of wheat
for the Old Country for some time
to come, according to Sir Herbert Mat-
thews, Secretary of the Central Cham-
ber of British Agriculture. He would
see very little prospect of Russian
wheat again being largely consumed
in the Old Country and with the as-
surance of supply from India, the
rather with the fact that people in
such countries as India, China and
Japan were steadily consuming more
wheat products, it was his opinion
that Canada is likely to be looked to
more and more as Britain's chief
source of supply of wheat.

MONTREAL, Que.—Total exports of
cattle to Great Britain from Canada in
1926 was 76,654 head, as compared
with 110,257 head in 1925 and 82,696
in 1924.

VANCOUVER, B.C.—Total value of
building construction in Greater Van-
couver during 1926 was \$24,858,145,
compared with \$16,408,236 in 1925.
During the year just closed 7,169
building permits were issued, of which
Vancouver city took 2,550, at a value
of \$14,004,000.

MONTREAL, Que.—Canada got 26
per cent. of the \$1,900,765,000 landed
abroad by the United States in 1926,
according to compilation by Moody's
Investors Service. Of the total foreign
United States imports at the end of
1926, amounting to \$12,252,600,000,
\$3,515,000,000 was estimated as being
in Canada.

VANCOUVER, B.C.—Vancouver's
population increased by 9,900 during
1926, according to the annual census
taken by the city assessment com-
mission and now stands at 137,197.
The total assessment of land is now
\$125,218,560, and the improvements
\$96,763,980.

EXPORTS OF LIVESTOCK

Exports of livestock from Alberta
for the year 1926 show a considerable
increase over the exports of 1925, ac-
cording to figures announced by the
Provincial Department of Agriculture,
in 1926 a total of ninety thousand
eight hundred horses and two hundred
and sixty three thousand, four hundred
and eight of cattle were exported, com-
pared with fifteen thousand one hun-
dred horses and two hundred and forty
two thousand head of cattle exported
in 1925. The exports were made to
other provinces, to the United States
and to Great Britain.

FUR FARMING

The Provincial Department of Agri-
culture is being besieged at present
with requests for the establishment of
fur farms and for licenses to trap
animals over large areas, including
prairie on many of the lakes in the
provinces.

Hon. Mr. Hoodley, Minister of Agri-
culture, announces in this connection
that an arrangement has been arrived
at between the Dominion and Prov-
incial Governments, whereby all swamp
lands will be administered for the fur
by the Provincial Department of
Agriculture, under regulations agreed

to, and all applicants for fur farming
rights are informed by the Min-
ister, who wishes it to be generally
known throughout the province, that
a definite policy in respect to the fur
farming industry is being formulated
and that no action towards granting
special rights will be taken until
spring, when a proper survey can be
made of the lands and lakes involved.

THE MINISTERS WIFE.

To please the parish she must be.
As active as a busy bee.
And in all things the others do.
When a proper survey can be
made of the lands and lakes involved.
There are now three other products
wells in the Turner Valley, the latest
to come in being the Mascod No. 2,
which came back into production
again last week with a flow of wet gas
containing nearly nine million cubic feet
per day.

HEAVY GASOLINE PRODUCTION

Over 200,000 barrels of 72 degree
natural gasoline were produced at
Royale No. 4 Well in the Turner
Valley, south of Calgary, during 1926,
the recent month being January, with
a production of 20,175 barrels, while
a total of 18,147 barrels were produced
in December.

OPERATING NEW BRANCH LINE

The new branch of the Edmonton,
Turner Valley and B.C. Ry., built from
Rushy, northwest of Edmonton, to the
Pembina river, is in operation for the
handling of freight. The branch is
at present 19 miles long, but will
later be extended to Barbhead.

ALBERTA'S 1926 COAL PRO- DUCTION

The preliminary estimate of the coal
production in Alberta for 1926, an-
nounced by the Dominion bureau of
statistics, was 6,172,000 tons, an in-
crease over the previous year.

Mrs. U. Roubens, who has been very ill with colitis for the past week or more, was removed to a Calgary hospital on Saturday.

The school children of Long Beach school held a surprise party for Glen Giberson, on Friday evening. Glen had the misfortune to hurt his hand very badly at Xmas time, and his friends took this opportunity of showing their pleasure at his being around again.

Mr. and Mrs. Holick entertained their many friends at a winter party last Friday evening, when a large crowd gathered to enjoy the hospitality of the Holicks home.

Standard boasts of an orchestra now. Mr. F. Messenger plays the drums, Mr. D. E. McLeod the banjo, and Miss Gaele the piano. They made their first outside appearance last Friday night, when they played for a dance at Rosebud. Mrs. F. Messenger and the Misses Margaret and Minnie McLeod accompanied the orchestra in Calgary.

Mrs. Peter Hansen returned on Wednesday from the U.F.W.A. convention in Edmonton.

Mrs. Chris Christensen was a passenger to Calgary last week.

Mrs. Paul Bushman and children spent the week-end in Chancellors.

DR. R. H. DENHOLME, D.D.S., Calgary

will be at Rockyford every WEDNESDAY
Sitting at McGuire's Office Phone 1.

Miss Kyle went to Husar on Friday, returning on Saturday's train.

Standard was quite deserted last Wednesday, when a number of "Wild Geese" left on the train for Chancellors. The flock returned by "ones and twos" looking the part. They say they had a fine goose dinner in Chancellors—how did you know?

You will notice that the Standard Cash Grocery has a very interesting advertisement in this issue of the paper. Standardites would do well to look over the grocery stock before buying elsewhere.

Stomach So Bad Can't Eat Even Fruit

"For years was badly constipated and troubled with gas after eating. Could not eat fruit and many other things. Adierka has done me good—can now eat anything," (signed) W. H. Fletcher. Adierka removes GAS and often brings astonishing relief to the stomach. Brings out a surprising amount of old waste matter you never thought was in the system. Stops that full bloated feeling and makes you enjoy eating. Excellent for chronic constipation. Strathmore Pharmacy.

READ THE WANT ADS.

ROCKYFORD

We are all eagerly looking forward to the 4th, when the Haintree Community Club put on their play at Rockyford. Such encouraging reports have been heard from those who have been privileged to witness the rehearsal, added to which, the fact that the play is directed by Mrs. J. Jones, that you should book early to avoid disappointment, as all the tickets are sure to be sold.

A play will be given under the auspices of the United Ladies Aid in the Rockyford Hall on Friday, February 18th. Endeavour to keep this date open.

The sale at Mr. Katterbach's last week was not a success, chiefly on account of the depressing effect of the weather, which was bitterly cold.

Mrs. Busch, of Nightingale, spent a few days this week as the guest of her sister, Mrs. J. T. Dahen, of Rockyford.

We are sorry to learn that Miss Viola Musch has had to curtail her studies in Calgary, owing to ill health. This is especially bad luck as she was making such splendid headway.

Everyone is looking forward to an improvement in the weather. It is a very hard winter, and fresh is none too abundant, and stock would greatly benefit by a little warm sunshine.

Mrs. Fife, of Bayham, is at present staying with her parents, Mr. and Mrs. T. Royce.

We are glad to learn that Mr. H. C. Best is responding to treatment at Tilden's, Denver, Col.

On January 25th, a number of people spent a most enjoyable evening as guests of Dr. and Mrs. T. M. Henderson.

There is at present a good deal of flu and colds in the district, and it is hoped that we shall soon have better weather and health.

The annual school meeting, which was to have been held in Glenora school on the 22nd, had to be postponed to a later date, not yet decided upon, on account of several people being, for one reason or another, unable to attend.

Mr. and Mrs. A. Kaughmann, of Husar, have been on a visit to Kenneth Schafer.

The Tudor Social Club are, we understand, making arrangements to put on a minstrel show in the near future.

The hockey game with Rosebud, fixed for Sunday, fell through as the visiting team failed to put in an appearance.

BIG BURNS' NIGHT AT ROCKYFORD

There were many who visited Rockyford for Burns' night, and they all had a good time.

The entertainment was of a very high order throughout. Dr. Macphatter, from Calgary, gave an address on Robt. Burns, while the efforts of Piper McLean were much appreciated. Geo. Kennedy gave a wonderful exhibition of step dancing, and Mr. Art Samsters, rendering of Scotch songs were much appreciated.

Mr. and Mrs. Rennie, in a sketch, "An O'Grady's", were one of the best numbers, in fact, all the artists who helped towards the enjoyment of the evening were in great form. The Rev. Father Belz, at the piano, was up to his usual faultless form.

Miss Mary Birt was one of the best numbers on the program.

The chair was ably filled by Mr. Black.

TO OUR READERS

The Standard will be glad to have the names of visitors in town and accounts of various social events for publication. Such communications should be signed and the address of the sender given. Readers in the surrounding districts are especially invited to send us news. We want to cover the whole Bow Valley. Make the Standard and Your Home Paper.

Here and There

New Seattle's coal output for the year ended September 30, was 5,600,000 tons, as against 5,200,000 tons for the previous year.

Tonnage of freight handled over the Halifax piers during the year of 1926 shows an increase of nearly 16 per cent. During the season 1,012 trans-Atlantic steamships entered the port, as compared with 980 during the season of 1925.

Herold's Pride, the mink imported into Canada by the Prince of Wales, and owned by Fred Johnston of Calgary, since last September, has been sold to the Brown Shasta Stud Farm in California for a sum in excess of \$5,000.

Wholesale fish firms of Yarmouth and Halifax report that 1926 was a record year, as to the demand for fresh and smoked fish in Canadian and United States markets. Shipments were freely made from Halifax to western Canada and points in California.

Immigration to Canada for the eleven months of the calendar 1926, ended November 30, amounted to 1,265,000 persons, according to a recent statement issued by the Department of Immigration and Colonization. This is an increase of 61 per cent, over the same period of 1925, when the total immigration was 80,991.

The Maui Rugby Football team, who have recently completed a successful tour of France and Great Britain, passed through Montreal en route over the Canadian Pacific lines to Vancouver, where they sailed for New Zealand January 27. This team won, during their eight-month tour, 22 of 31 games played.

According to recent compilation by the Canadian Government, Canada now leads the world in public per capita distribution of electricity from central power stations. The figures of kilowatt-hours generated per capita per annum by the five leading countries are: Canada, 1,260; Switzerland, 856; United States, 501; Sweden, 407; Norway, 370.

The Russian Government is to buy another herd of Canadian horses this spring, it was announced at the Alberta Provincial Horse Breeders' Association meeting in Calgary recently. R. E. Wilson, Dominion Government agent, who was responsible for the statement, declared that from 2,000 to 5,000 horses would be required.

The year 1926 was a banner year for the British Columbia coast steamship service of the Canadian Pacific Railway, according to Captain J. W. Troup, manager of that branch of the C.P.R. fleet. The "Princess Margaret" and the "Princess Kathleen" in the triangular service, make a fine record and the Alaskan tourist business was brisk.

For the first time in the history of Alberta, alfalfa seed is being shipped to Denmark. This is registered Grimm alfalfa grown by the Grimm Alfalfa Seed Growers' Association, at Brooks, which this year produced one-third of a million pounds of this seed. It appears that Danish growers have experimented with this seed in the past and have now placed an order for 50,000 pounds.

The Nova Scotia Fruit Growers' Association has requested the Provincial Department of Natural Resources to appoint and send overseas a Commission to enquire into the conditions under which Nova Scotia apples are marketed. The requested personnel is the Secretary of the Nova Scotia Fruit Growers' Association, a representative of the United Fruit Companies and the newly appointed Provincial Horticultural, Fred Kiddell.

AMERICAN OPERATORS WILL EXPORT CANADIAN CREAM

Corwall, Ontario—United States dairy operators have taken out a charter under the name of the Provincial Dairy Board for carrying on a cream-exporting business. Their shipments will be made mainly to Florida and other southern parts, it is said. It will be an all-year-round business and should provide the farmers of the neighborhood with a steady market. W. M. Halsey, of Utica, New York, is president of the company.

The Improved Tudor Sedan

THE new all-steel body, lower and longer, gives the Tudor Sedan a fascinating appearance that will recommend it to the fastidious motorist.

All seats have been re-designed, adding to the comfort of driver and passengers. The new one-piece windshield combines wider vision and improved weather protection, with ideal ventilation control for all seasons. The body is finished in a beautiful dark blue with nickel-plated radiator shell and headlamp rims, and the chassis in black.

I Saw Last Week

HARRY MINER wonders what excuse he will have to stay out late on Tuesday night if he doesn't change his mind, and be a candidate for Council. JIM WEIR and NORMAN GAY have enquired the price of last week's. TED SCHULTE and GEORGE QUINN carefully going over building costs of bungalows. BOBBY HAMPTON agreeing with BILL GRAY that Reeve H. S. B. Chamberlain should be fired if he doesn't see that the road to Fortia Vale is put in A-1 condition at once and kept so. CLIFFORD WAY looking quite disheartened when informed that a young man had joined his farming staff. JIM MOIRAN bemoaning the fact that he was so busy that he missed half the hockey match on Friday night. JIM GUIN looking badly mused up after having a six day job in the clutches with Monsieur 'Fiu Fiu' HELLIN beginning to get his strong right arm in condition for May 24th. SEVERAL ELECTORS endeavoring to persuade THOS. E. WRIGHT that he would make a fine looking Mayor, and Tommy showing them all wrong. FRANK MILLER closely inspecting the work of Percy Parry, and being told by the artistic workman to go and chase himself. JIM MOIRAN, with his usual Irish kick, picking up a soft job at the King Edward Hotel. TED SCHULTE explaining to George Smith a new system of medical treatment that has been proven a success. BILL SANDWICH comparing late himself that No. 3 train was late, which gave him a good excuse for getting a car and driving to Calgary. A SHERIFF SMITH, while for electric light for the month of January in a hardselling establishment. JACK ALLEN had better go long and check up. S. H. CROWTHER and E. P. Foster leaving a dry party, but still smiling. 'TINTY' GRAY endorsing Edwin Cotts general run. MI. MOODIE putting up with an awful lot of suggestions from Bill Saunders about well drilling. GEORGE HUGHES arguing that the 9th day of the month is a lucky one and RAY MELVIN agreeing to wait and get proof. THE BANK STAFF, while D. E. LINDEN, when he became a diamond expert. JOHN KEELING looking mighty serious before he selected the lucky numbers. W. S. PATTERSON putting himself on the back when he had completed the Canadian Legion annual financial statement. FRED ANDERSON having a swell time with his new handbag. JIM MARTIN wishing that the new post office was completed, and the whole outfit moved in position, and everything. HAROLD SMITH hunting for a Strathmore Standard on the Canadian road, to see what it said about him in full dress. When it comes to decorating dining rooms you have got to hand it to W. S. PATTERSON and GEO. P. KEARNS. DOUG FRENCH advising George Quinn to come to the Valley, on the date of February 13, and find out if she's true. DON MCKAY wishing that his boss would run for Mayor so that he could have a real one in a while. GATSPERH H. FISHER walking around admiring the many improvements being made to their store by the landlord. HERB HAMMER branching out in the chicken business, in a small way as a starter. A beautiful doxy nunsheer, arriving very slowly, and flexibly, proclaiming it a grand and glorious feeling. WILFRED GARDNER, JIM GANNON, EARL GILLESPIE and W. MATH MURCH making a hit as the new orchestra on Monday night. BILL TIERNEY out hunting to find out if the ground hose was his shadow on Candlemas day. M. S. HIRTLE proving that he still can handle the stils on Monday night. GENE GIRDICK a little late in arriving on 8th Street. A. V. McPARDLAND wondering when the new fire hose will arrive. OLIVER, WRIGHT and CHARLIE KEELING hoping that Foster is right when he predicts a late and cold winter and spring. DICK LILLY and BOB ANDERSON trying to initiate London latest and most treasured possession. Lundy says they will fall.

BIG DAIRY CONVENTION

Delegates from all over Western Canada will gather at Edmonton during the week of February 8th, for the Western Canada Dairy Convention which is expected to be the largest of its kind ever held. Special exhibits are being prepared for this convention, and prominent speakers will deliver addresses. Delegates will be present from the four western provinces. It is just thirty years ago that the first move was made by government authorities to assist in the extension of the dairy industry in the West. The history of the development of the industry in that period will be one of the interesting topics of the convention.

ALBERTA'S AGRICULTURAL PRODUCTION

The total market value of agricultural production, including grain and furs, in Alberta in 1926, has been estimated by the provincial department of agriculture at approximately \$254,000,000, compared with \$257,500,000 in 1925.

The total wheat crop is estimated at 113,120,000 bushels, compared with 102,953,000 bushels in 1925. The average price of wheat is estimated at \$1.50, compared with \$1.12 in 1925, thus giving the 1926 crop a value of \$17,767,500,000, on an account of the heavier yield, is an increase of more than \$3,000,000 over 1925. There is a decrease in the yields of oats, barley and rye, but the value of root and feeder crops shows an increase. There is an increase in production of creamery butter, but the lower price level in 1926 brought the value of dairy products lower than in 1925. There is an increase in the value of the wool clip over 1925, and a large increase is registered in the wool clip. Honey production was almost doubled over 1925, and there is an increase also in alfalfa seed production. Livestock marketed and in poultry products.

The value of the various branches of production is estimated as follows:

1925	1926
Field crops.....\$145,312,120	\$154,432,760
Root crops.....5,679,550.00	6,128,390.00
Poultry.....15,575,850.00	15,575,850.00
Dairy products.....23,662,000.00	21,250,000.00
Honey.....100,000.00	175,000.00
Alfalfa seed.....35,000.00	36,500.00
Wool.....13,000,000.00	13,000,000.00
Country prod.....5,000,000.00	5,000,000.00
Wine and fruit.....2,000,000.00	2,000,000.00
Livestock marketed.....21,000,000.00	21,000,000.00
Total.....\$254,000,000.00	\$257,500,000.00

SALVATION ARMY MAY

USE PART OF SCHOOL AS HOSPITAL

Suggestion Made to Use Portion of Agricultural School Building as Hospital if Army Secures Property.

Will Spend \$8,000 to \$10,000 on Improvements.

That the Salvation Army, if it obtains the school of agriculture building for an old hotel, may use one wing as a hospital was the statement of Adjutant Stewart, who looked over the property at Thursday.

In conversation with The Plainsdealer Adjutant Stewart suggested the possibility of a maternity hospital and asked if that would be a benefit to the town. He was informed that there was a possibility of another place being opened as a hospital, and that steps were being taken toward that end at the present time. The town council was not anxious to go into the hospital business he was informed, and if the Army would use a portion of the building for that purpose the town would gladly withdraw.

The Army hospital are usually for maternity cases only, however, and the Adjutant was given to understand that the town would like to have an operating room in connection with it for minor operations at least. The matter will be submitted by the adjutant in his report to the Winnipeg office and considered with the whole matter of the taking over of the building.

Asked as to the probable cost of putting the building into shape and rearranging it to suit their special needs he stated that it would probably run between \$8,000 and \$10,000. He thought the property would be suitable.

The Plainsdealer

WHY HOOLEY LEFT TOWN

Somebody sent the Editor a few letters of home-bred. The same day he received or published a Wedding Announcement and a notice of Auction Sale. Here are the results: William Smith and Miss Lucy Anderson were disposed of at public Auction at my farm one mile east of a beautiful country of roses-on-hill, lawn and two white barns before a back ground of farm improvements—too numerous to mention in the presence of about seventy guests including two pillars six miles, one lady-led Rev. Jackson tied the nuptial knot with two hundred feet of hay rope and the bridal couple left on one good Deering game plow for an extended trip with terms to suit purchaser. They will be at home to friends with one good baby buggy and a few new utensils ten months from date of sale to responsible parties and some chickens.—R.

ALBERTA MOTOR REGISTRATION

For the year 1926, a total of 54,775 automobiles were registered in the province, compared with 53,092 in 1925.

IS YOUR WILL RIGHT?

A man who takes these three precautions will secure real peace of mind about his will.

1. Have a solicitor draw the will. That saves the danger of litigation made possible by technical irregularity.

2. Discuss its practical provisions with this Company. Our wide experience in Executorship might suggest a more practical method of achieving the result in mind.

3. Name The Trust and Guarantee Company, Limited, as Executor.

THE TRUSTS & GUARANTEE COMPANY, LIMITED
220 Eighth Avenue West, Calgary.

WILL NOT SELL PHONE SYSTEM

A complaint was paid to the Alberta government telephone system, recently, when large eastern financial interests made an offer to the provincial government to purchase the system. The offer was refused by the government desiring to continue to own and operate the system, which is recognized as one of the most efficiently managed on the continent.

HIGH PRICE FOR ALBERTA BONDS

The highest price paid for Alberta bonds since before the war was obtained recently when two issues, one for \$1,200,000, and the other for \$1,200,000, were purchased by a Montreal bond house. The first issue, maturing in thirty years, bore a price of \$94.15, and it is to be used to pay the Royal Bank claim on the E.D. & B.C. Ry. The second issue, maturing in ten years, bore a price of \$95.81, and is for the completion of the program of main highway construction in Alberta during the next year.

NEW DRUG CURE

Application has been made by the Alberta Dept. of Health for a supply of the new narcotic drug known as Naroxan. This wonderful new medicine has been produced in certain institutions for the curing of drug addicts and has also been found beneficial in the treatment of alcoholism. There are a few patients at present under treatment in one of the government institutions, and it is the desire of the Minister of Health to put at the disposal of the authorities of this institution, if at all possible, a supply of the medicine, under these patients may have the full benefit of the new discover and in order that a complete test of its merits may be made.

NEW SPEAKER OF LEGISLATURE

Mr. Geo. N. Johnston, member of the legislative branch for Corralton, has been selected by the former U.F.A. members as speaker of the legislature, to succeed Hon. O. L. McPherson, who recently succeeded Hon. Alex. Ross as Minister of Public Works in the Alberta government. Mr. Johnston's formal election will take place when the legislature meets on February 10. Mr. Johnston was born in Winnipeg. Ont. 43 years ago, and was educated there and at the London, Ont., collegiate. He taught school for a time in Ontario, then came west in 1900, attending the normal school at Regina. He taught for some time and also homesteaded in Saskatchewan, and in 1910 took up a homestead south of Corralton, Alberta, where he is present resident. He has been a prominent member of the legislature and was last year chairman of the committee on redistribution.

CHINOOK W. L.

MAKE PROTEST TO GOVERNMENT

Ask that School of Agriculture Here be Opened as Need Arises.

CHINOOK, Jan. 22.—A special meeting of the Women's Institute was held last Thursday at the home of Mrs. Stewart in connection with the school of Mr. Hooley to add to the buildings of agricultural schools now in operation rather than re-open the agricultural school at Youngstown. A letter was drawn up by the Institute to be sent to the Women's Institute at Corralton and Orya condemning the proposal and asking that the women of the three Institutes send a strongly worded resolution to that effect to the government.

ONTARIO MINERAL LANDS

PROMISING PROSPECTING FIELD

Toronto, Ontario.—Northern Ontario has 2,500,000 square miles of mineral lands, of which only 7 per cent. has been exploited; and yet the seven per cent. has already produced more than \$100,000,000 in mineral products. Such was the summing up of George C. Bateman, Secretary of the Ontario Mining Association, speaking before the Engineers' Club.

"Twenty years ago," he reminded his hearers, "Northern Ontario was practically an unknown wilderness. Today it is the centre of a large and growing industry. Last year's metallic production in that area ran to \$60,000,000, or \$100,000,000 more than the year before. Adjoining this land, in Northwestern Quebec, one sees the most intensive scientific prospecting the world has ever known."

RUSSIA WILL IMPORT
MORE CANADIAN HORSES

Winipeg, Manitoba—Russia will
be buying a few thousand more Canadian horses this spring, according
to Jack Rivers, Western Livestock

Representative of the Federal Department of Agriculture, who went over with the last shipment of 1,000 western ponies. He added that Russia will need about 50,000 horses to replenish the wastage of the recent famine.

THANKS FOR SUPPORT OF PAST YEAR

The Standard has completed the first year under the present management, and wishes to express thanks to the business men and residents of Strathmore and the Bow Valley for the financial support and assistance so generously extended; also to our correspondents for their splendid news service so regularly furnished each week covering the district very completely and mainly through whose efforts the Standard has been enabled to furnish a timely paper.

The year has been a most happy one for the Standard management, comparatively free from petty annoyances which sometimes follow in the wake of a local publisher.

A year ago the Standard announced that it would give a hearty support to everything which we thought was in the interest of the Bow Valley and Strathmore. This policy the Standard has endeavored to maintain, through co-operation with other citizens. We can look upon the past year as one in which results have been fairly satisfactory. During the year the making of the contract to secure light and power was carried out, and the work completed, making it possible for everyone who desires either electric light or power, to obtain the same.

The organization of the Fire Dept. has been successfully accomplished, and the more fully equipped of the same, justified in the recent fire.

The change of the taxing system by abandoning the Single Tax, has left Strathmore in a very sound financial condition, for which the thanks of the Mayor Bell and the Council of 1926. The Standard again thanks one and all for their support, not only financially, but in a hundred and one ways through which they have helped to make the Standard a welcome visitor each week in many homes, thereby giving the readers a local news service, and the advertisers a medium for presenting their propositions promptly in order that they may be in a position to meet outside competition most effectively and economically through the use of its advertising columns.

GETTING NEW BUSINESS

The progressive business firm finds that it needs to be constantly making new friends and creating a new circle of customers. If it just depends on satisfying those who have previously bought its goods, it is likely to see its trade diminished. Population changes more rapidly now than formerly, and if a firm has a certain list of customers this year, it can expect, as the result of all the changes that naturally occur, that a considerable proportion of those customers will not be on the list in a year or two.

Also people are changeable in their habits, and unless a very energetic effort is made to hold old customers by advertising, a lot of them will go elsewhere, attracted by the various inducements that are offered them.

People are not much inclined, as they were often formerly, just to trade at one place or a few places right along year after year. They are quick to get the idea, if one firm seems to be having a little harder time than its competitors to please the people, and no feeling of habit or sentiment of loyalty is apt to hold them, if they think they can do better by going elsewhere for something they want.

By an active campaign of advertising, a firm can keep making new business friends, to make up for those who drift elsewhere. It does not take the kind of persuasion to win such new customers in these times.

People are ready to go to any place of business where the spirit of enterprise and hustle seems to prevail. A concern that makes it a regular practice

to advertise, even if it does not take any great amount of space, will have a constant stream of inquiries entering its doors, who will more than make up for old customers who go elsewhere.

The progressive business firm finds it needs to be constantly making new friends and creating a new circle of friends.

The population is constantly changing and a firm which had a certain list of customers last year, has no guarantee that the list will number the same this year.

The best method to reach the new people is through consistent advertising, together with a reasonable attempt to build up a good will, through every effort that may be made to be of some service in the community.

The fellow who is going around with a chip on his shoulder, looking for trouble, usually succeeds in finding it. People are ready enough to trade where a reasonable spirit of enterprise is shown.

OPPORTUNITY FOR COMMUNITY WORK IN SMALLER CENTERS

From time to time, the point is emphasized that in the smaller towns there is but little opportunity to do community work.

Such a statement is very far removed from actual facts, and it might further be said that greater opportunities exist than in the larger centers, where the attention of the people is divided so much with the ever-present amusement features of entertainment.

A splendid presentation of actual community work is that which exists in a small town in Ontario, named Easton's Corners, only a small village with an adjoining district which but sparsely populated and the roads leading to the village none too good. The Community Club meets weekly in a small hall at Easton's Corners, and draws from one to two hundred people a week through the winter. The club has been developed to guide the social life of the district. Not only recreation, but education and adjustment of the community to changing conditions are functions of the club.

An active executive plans a program which keeps the members in touch with leadership in many lines of thought. Public health, politics, schools, agriculture, literature, art, and many other subjects are discussed by their own speakers and by experts from outside. Debates, concerts, spelling matches and other forms of entertainment alternate with the heavier programs. The club has assisted in the development of an orchestra also.

Attention!

During February we will sell at 10% discount on all cash sales of \$10 or over, on everything in the store, except flour, sugar, butter and eggs.

We have one hundred boxes of apple in perfect condition included in this sale.

Also a nice new shipment of Dry Goods. Free balloons for the kiddies.

Standard Cash Store

Standard, NELSEN BROS. Proprietors, Alberta

TRADE WITH ORIENT GROWING RAPIDLY

The trade out of Vancouver has shown a marked increase and the encouraging news in connection therewith, from an Alberta viewpoint, is the development of the wheat and flour trade with the Orient. It is but a few years when not a pound of wheat or flour from Alberta found a market in either Japan or China.

"Agricultural and Industrial Canada, in referring to the trans-Pacific trade, has the following to say: The year 1926 saw a substantial increase in trade out of Vancouver, this being apparent in a wide variety of commodities. In the first ten months of the year lumber exports amounted to 400,902,000 feet as against 246,634,000 for the same period of 1925. Wheat shipped from the port totalled 322,200 bushels as compared with 15,110 bushels in 1925. Pigs and calves of lead and spelter shipped totalled 2,009,227 as against 1,008,985; apples 199,094 boxes against 43,505; flour 862,925 barrels against 629,944; and frozen fish 70,152 packages against 50,660. While Vancouver carries on trade with ports in a great many countries, the foregoing, in an especial manner, reflects the growing volume of trans-Pacific trade that is being carried on with the countries of the Orient and Antipodes.

Prior to the war Canada was carrying on a relatively small volume of trade with these countries, one feature of which was a large adverse trade balance with Japan. This business grew in a very gratifying manner during the war period, as evidenced by the following figures:

Australia—Imports 1919, \$323,017; 1920, \$1,371,755. Exports 1919, \$3,383,447; 1920, \$11,415,929.
New Zealand—Imports 1919, \$775,365; 1920, \$3,494,000. Exports 1919, \$896,539; 1920, \$4,987,000.
China—Imports 1919, \$799,708; 1920, \$1,205,229. Exports 1919, \$1,230,162; 1920, \$6,665,805.
Japan—Imports 1919, \$2,179,396; 1920, \$13,657,287. Exports 1919, \$660,522; 1920, \$7,732,514.

The really remarkable development of trans-Pacific trade, however, belongs to the post-war period. A revolution which has taken place in the food of the Oriental countries, resulting in a demand for hard wheat and flour, has largely contributed to the meteoric growth of trade in that direction. The steadily growing trade with the Antipodes has of late been considerably stimulated by the Canada-Australia treaty. Figures of trade have steadily ascended until, in quite sensational manner, Japan has

become the heaviest purchaser of Canadian goods after the United States and United Kingdom, and Canada is selling to Australia more substantially than to any other country in the British Empire. This trade is still growing, as the following figures indicate, and the indications are that it is apparent it will continue to expand. Figures for the twelve months ended October 31st:

Australia—Imports 1924, \$1,183,711; 1925, \$2,777,134; 1926, \$1,839,345. Exports 1924, \$14,482,413; 1925, \$13,062,100; 1926, \$17,743,600.
New Zealand—Imports 1924, \$1,560,160; 1925, \$1,565,586; 1926, \$3,856,118. Exports 1924, \$13,576,994; 1925, \$15,503,666; 1926, \$15,807,621.

China—Imports, 1924, \$2,096,606; 1925, \$4,529,945; 1926, \$17,134,000. Exports, 1924, \$26,923,431; 1925, \$20,878,023; 1926, \$39,062,070.

The most significant phase of trade with the countries of the Orient is that in wheat and wheat flour, and according to authorities this is due to steadily increase in the future. In 1913 Canada exported no wheat whatever to China, and in 1918 exports of this commodity commenced to Japan. Flour exports were not initiated till some time later. In the first six months of the present fiscal year Japan purchased 1,067,241 bushels of Canadian wheat worth \$2,044,473, and China 550,636 bushels worth \$725,413. In the same period, China took 105,000 barrels of flour worth \$1,181,710 from Canada, and though no purchases are credited to Japan for the period, this country, in the previous corresponding period, took 14,000 barrels worth \$92,290.

The phase of trade to Australia, which has been principally affected by the treaty, is that of newsprint and other papers. In the first six months of the present fiscal year exports of newsprint from Canada to Australia amounted to 360,500 cwt. worth \$1,279,636, as compared with 2,173 cwt. worth \$1,587 in the previous corresponding period. Exports of book paper rose from 4,476 cwt. worth \$35,835, to 12,087 cwt. worth \$98,551, and those of writing paper from 926 cwt. worth \$5,551 to 5,729 cwt. worth \$39,056. Certain kinds of fish, given a preferential entry under the treaty, have also increased, notably canned salmon, which, in the period, increased from 13,289 cwt. worth \$207,849, to 17,677 cwt. worth \$301,103.

SCHOOL COLUMN
 At the School Fair meeting last
 Saturday a prize-list was adopted. An
 effort will be made to have typewrit-
 ing copies of this in the hands of the
 teachers in the near future. Prize
 lists will be printed later. Special
 prizes have been commenced to be received
 and the following are gratefully ac-
 knowledged: Henry Birk & Sons,
 Jewelry; E. W. Gillett Co., Ltd., Tor-
 onto; Magic Baking Powder (two cases).
 Last Saturday, at the home of Mr.
 and Mrs. Short, a surprise party was
 given in honor of Miss Margaret Eves,
 who has left Strathmore for Hanna.
 During the evening a presentation was
 made from her class mates and a few
 friends.

The hockey game between Strath-
 more School and Gleichen, resulted in
 a win for Strathmore by a score of
 8-2. The local team lined up as fol-
 lows: Goal, John Garrett; defence,
 Michael Moran and Jack Orell; for-
 wards, Will Giroux, Charles Giroux
 and Stanley Gardner; Subs, Herbert
 Rottenger, Norman Ellis, Hector Mc-
 Gregor and Nathan Woldman.
 The boys made an excellent showing
 and their combination play was very
 creditable. There is valuable material
 here on which the Senior Team may
 draw in the future. Mr. Foster, who
 is managing the school team, hopes
 to be able to arrange some more
 games with other schools.
